**3 Request for an equivalency review:**

- a Specify the particular code and section of the code, or any referenced standard, for which you are requesting a review for equivalency.

Code	Edition	Section
------	---------	---------

- b Indicate on your plans what portions of the building will be affected by the equivalency review.

- c Detail what your alternative approach entails and any compensatory measure:

- d State the reasons for the requested variance, including why the strict letter of the code is impractical, how the equivalent construction proposed would satisfy the code's intent and why modification would not lessen health, life and fire safety or structural requirements in the listed code sections).
