# SCAM

# ALERT

October 14, 2015, the Upper Merion Police Department has received multiple scam phone call complaints from residents in the township. Each report from our residents seemed to vary a bit, but the final request was for the resident to call the Chester County Sheriff's Department and/or send money through a PayPal account. The caller would claim that the resident didn't respond to a court notice, has a warrant for their arrest, was due in court for jury duty/grand jury, etc. In checking the Chester County Sheriffs website, they have a warning notice on their front page in reference to this scam and request people ignore the calls or contact their agency for further information.
